- 1.د- present reports in seminars or group discussion
- 2.د- work coherently and successfully as a part of a team in assignment
- 3.د- Choose and use appropriate computer program.
- 4.د- Study and find information independently.

محتوى المقرر :

ساعات إرشاد دروس أكاديمية / عملية	محاضرة	عدد الساعات	الموضوع
40	8	88	Normal Newborn
32	8	40	Identification of High- risk neonate
8	2	10	Infection control in NICU.
40	10	50	Assessment of physical, mental, social and emotional growth and development in infant, and toddler.
40	16	80	Provision of health promotion to infants & children
80	8	48	Provision of nursing care to infants and children with common medical conditions
60	8	32	Identification of congenital anomalies
300	60	360	المجموع

4 - أساليب التعليم والتعلم :

Lectures.

Group discussion

Demonstration & re-demonstration

Simulation.

Case studies

assignment

5 - أساليب تقييم الطلاب

Periodical examination	to assess knowledge and understanding skills
Periodical clinical evaluation	to assess Professional and practical skills
Mid-term examination	to assess knowledge and understanding skills
Final term examination	to assess knowledge and understanding skills
Oral examination	to assess intellectual and knowledge skills
Assignment	To assess general & transferable skills

جدول التقييم :

النسبة المئوية لكل تقييم :

10 %	امتحان نصف العام / الفصل الدراسي
40 %	امتحان نهاية العام / الفصل الدراسي
10 %	الإمتحان الشفوي
40 %	الإمتحان العملي أعمال السنة / الفصل الدراسي

%	أنواع التقييم الأخرى
100 %	المجموع

أى تقييم آخر بدون درجات (Assignment)
